ABOUT ME

I am a third-year computer engineering student at Kasetsart University with a strong passion for software development. I have built several projects, including both frontend and backend applications using programming languages and frameworks such as Go, Node.js, React, and others. I believe that intelligence can be developed through dedication and hard work, and I am excited to apply my skills and knowledge to develop innovative and user-friendly software products.

SKILLS

- **Backend:** Golang, Node.js, Python, MySQL, PostgreSQL, MongoDB, Redis, gRPC
- **Frontend:** ReactJS, NextJS, TailwindCSS, React Native
- **Tools:** Amazon web service (ec2, s3), Docker, Github, Grafana, k6
- **Soft Skills:** Growth mindset, Self learning, Decision making, Time management, Communication

EXPERIENCE

Database Management Project (December 2022)

- Design a Database for Clinic

What The Dust 2.5 project (March 2023)

- Particle Counter by Arduino
- learn about IoT (internet of things)

Zidequest Project (July 2023)

- GIS Application for University Activities
- Design a database, create an API, and implement it using Node.js to create a GIS application that shows activities on your campus using the Google Maps API.

Seed Zero Camp (August 2023)

- Teacher Assistant (Backend Developer)

Write Article on Medium (September 2023)

- ตอนที่ 1 เริ่มต้นเขียน API ด้วยภาษา Go (Fiber)
- ตอนที่ 2 สร้าง RESTful API ด้วยภาษา Go (Fiber)

Small Project (on Github)

- gRPC with go
- load testing with k6, grafana, influxdb
- CRUD Todo web app
- Authenticate, Authorization
- Social web app
- Realtime Chat web app
- E-Commerce web app

EDUCATION

2006- 2021 (GPA: 3.61)

- Kasetsart University Laboratory School
- Math-Science

2021 – now (GPA: 3.16)

- Kasetsart University
- Bachelor Degree of Computer Engineer
