- **Tools:** Amazon web services (ec2, s3), Docker, Github,

TECHNICAL PROJECTS

Personal Website: [suphakit](#)

ZideQuest

Backend Developer & Team Leader

Bangkok, Thailand

Jul 2023 - Oct 2023

- Led a 4-person team to develop a backend of Kasetsart University student mobile app that streamlines campus activity engagement for students and hosts alike. Students can effortlessly find and join activities, track their hours, and display their levels.
- Designed and Implemented a database and API to support features such as authentication, storing images on the cloud, storing data of activity and location to work with Google Map API, also end-to-end testing.
Utilized: React Native, Node.js, Express, MongoDB, Google Map API, Cloudinary

Social App

Full-Stack Developer

Bangkok, Thailand

January 2023

- Design and develop a social media website where users can post their own photos, text, and videos. Implement a friend request system to allow users to see posts from their friends and engage with each other.
Utilized: React, Redux, TailwindCSS, Express, MongoDB, Cloudinary

kittotype [kittotype](#)

Full-Stack Developer

Bangkok, Thailand

September 2023

- Developed a minimalistic typing test web application that allows users to see live errors, WPM, and accuracy displays.
Utilized: NextJS, Typescript, TailwindCSS

Leave Work

Full-Stack Developer

Bangkok, Thailand

September 2023

- Developed a web app for tracking user leave data, including leave date, type, notes, and entry date. Authenticate users to ensure data security.
Utilized: NextJS, TypeScript, Material UI, TailwindCSS, Go, Fiber, PostgreSQL, Docker

Mood & Sound [Mood&Sound](#)

Full-Stack Developer

Bangkok, Thailand

September 2023

- Built a Mood & Sound web application. This web application will display various sounds for users to choose from based on their mood.
Utilized: NextJS, Typescript, TailwindCSS

LEADERSHIP

Seed Zero Camp Teacher Assistance

September 2023 - September 20 2023

- Had the opportunity to be a teacher assistant in the backend developer position at the Seed Zero Camp, which is a programming camp.

Medium Article Writer medium.com/@kitsugarr

September 2023 - Present

- Composed an article on the basics of Golang for those interested in programming.
